FR-TREATED 100%
COTTON**
provides protection
from heat and sparks
and is ANSI/ISEA
107-2015 certified

**FLAME-RESISTANT
REFLECTIVE STRIPING**
meets ANSI/ISEA
standards for
retroreflective material

Targeted Applications & Industries

Designed for workers in environments exposed to traffic in the roadway, temporary traffic control (TCC) zones, or from work vehicles. Targeted applications include utility workers, railway workers, oil and gas extraction workers, refinery workers, and roadway construction workers.

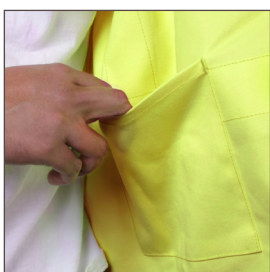

WELDER'S COLLAR
helps keep sparks
and UV rays off the
neck

**ACCESS SLOT
ON BACK**
for fall protection
harness pass through

“X” PATTERN
alerts others to when
wearer's back is turned

**CONCEALED SNAP
FASTENERS**
allow for quick and
convenient on and off

**32" EXTENDED
LENGTH FRONT**
offers extra
protection from
sparks and spatter

Convenient inside pocket
securely holds small items.

Scribe pocket on left arm
holds welding pencils and
paint markers.

Reflective stripe configuration on
back maximizes available print area
(additional charges apply).
